

To: Committee to Review the Operations and Structure of the
California Commission on Judicial Performance

From: Research and Report Subcommittee¹

Date: October 23, 2022

Subject: Updated Chart Reflecting Committee Discussions to Date
Regarding Recommendations of the California State Auditor to the
California Legislature and the Commission on Judicial Performance

At its meetings of September 14-15, 2022, after hearing statements from various organizations and individuals, the Committee considered and discussed a chart that analyzed the recommendations of the California State Auditor's 2019 report regarding the structure and operations of the California Commission on Judicial Performance ("CJP"), as well as additional subjects identified in the Committee's mandate from the California Legislature.

The chart has been updated to reflect the September discussions, noting those matters as to which there appears to be consensus among the Committee, and those as to which further discussion is necessary.

¹ The members of the subcommittee are Cheryl Boudreau, Richard Long, Morris Ratner, Rick Simpson, and Robert Tembeckjian. Committee Chair Beth Krom serves *ex officio* on all subcommittees.
